The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

1. Claims 1,3,5-6,8-9,16-19 are rejected under 35 U.S.C. 102(a) as being anticipated by Isobe et al.

Isobe et al. teach an image forming apparatus comprising a detachable process unit 13 having a photosensitive drum 15 and a developing devices 21B, 20C, 20Y, 20M. The developing device 21B has a developing roller 21BS, a toner containing portion 21BG, agitators 21BU and 21BT within the toner containing portion, and a partition member 44A (see Fig.5 and 7). The partition member is molded to a top frame or cover of the toner containing portion. The partition divides the toner containing portion into a plurality of rooms wherein the rooms have an arcuate shape. A plurality of ribs 44B intersect the partition member 44A in a perpendicular direction. It is noted that in Fig.7 that member 21BD is a side frame not the cover in which examiner is using in the above rejection.

2. Claims 7 and 20 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

3. Claims 10-15 are allowable over the prior art of record.
4. Applicant's arguments filed 8/8/03 have been fully considered but they are not persuasive.

The examiner believes that at least a part of the top frame of the developing housing of Isobe et al. (see Fig.5) would be considered a "cover for covering said developer containing portion" which has the partitions integral molded. It is to be noted that applicant does not say this is a detachable cover or an exterior cover.

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
